FAQ

There's likely a lot you don't know, you don't know. So, here are the most common questions we get.

How long have you been a Wedding and Event Planner?

Amanda Douglas Events was founded in 2012. Amanda has been coordinating and planning weddings and events since 2005.

What sort of weddings and events do you specialize in?

Our all time favourite events are those outside the box. We specialize in unique venues – tents, private properties, museums, galleries, and warehouses. If we can build the location or customize it for you that's when we're in our element.

What sets you apart from other wedding and Event Planners?

At Amanda Douglas Events we aim to be the most experienced, educated, caring, and organized as we possibly can be for each of our clients while meeting each of their specific needs. It really comes down to our personality. We love our clients and believe you should truly connect with your Wedding or Event Planner!

How many weddings/events does Amanda Douglas Events plan or coordinate a year?

On average, we take on 30-35 weddings a year as well as various other events.

Is Amanda Douglas Events just a one-woman show?

Amanda has a wonderful team - all trained by Amanda herself - who are brilliant at coordinating weddings and events. Ensuring that on your special day, you'll be well taken care of.

Do you ever book more than one wedding or event on the same day?

On occasion, we will book two events on the same day, but each event will be managed by a separate team to ensure every couple gets the energy and attention they deserve.

Are you able to travel for my wedding?

Yes! We love traveling, so it's a great combination of two of our favourite things! We specialize in planning events at unique venues and love the logistical challenge of creating an incredible wedding from nothing. We particularly love working in nature. If you're planning a wedding at the lake, a wedding in Kenora, or at an out-of-town property, then we're up for the challenge.

“Amanda has an "I got this" vibe about her that is both comforting and reassuring. She is warm and engaging with you when she speaks (no matter how busy she is!). She is a step ahead in anticipating your needs and her professional and friendly disposition makes her extremely easy to be around.”

“Think about the wedding vendors who you will be spending the most amount of time with. You should love their personalities. I think that every couple deserves to be surrounded by the right wedding professionals for them. When you find a wedding vendor that you love, go with your gut. I’d love to see if I’m the right fit for your needs.”
